*Graphical Summary¹

The following are overall graphical summaries for key University information for the **Fall** semester of academic year. A full **Description of Data** is presented after this general Graphical Summary section.

Figure 1. University-wide undergraduate and graduate enrollment by year (as of Fall semesters)

¹ Data presented in the graphical summary are for the Fall semester of the academic year, unless otherwise noted.

Figure 2. Undergraduate and Graduate: University-wide applicants, admits and enrollees by year (Fall admission)

Figure 3. Percent of admits from total applicants and percent of enrollees from total admits (yield) by year across graduate and undergraduate programs

Figure 4. Undergraduate: Applicants, admits and enrollees by year and program

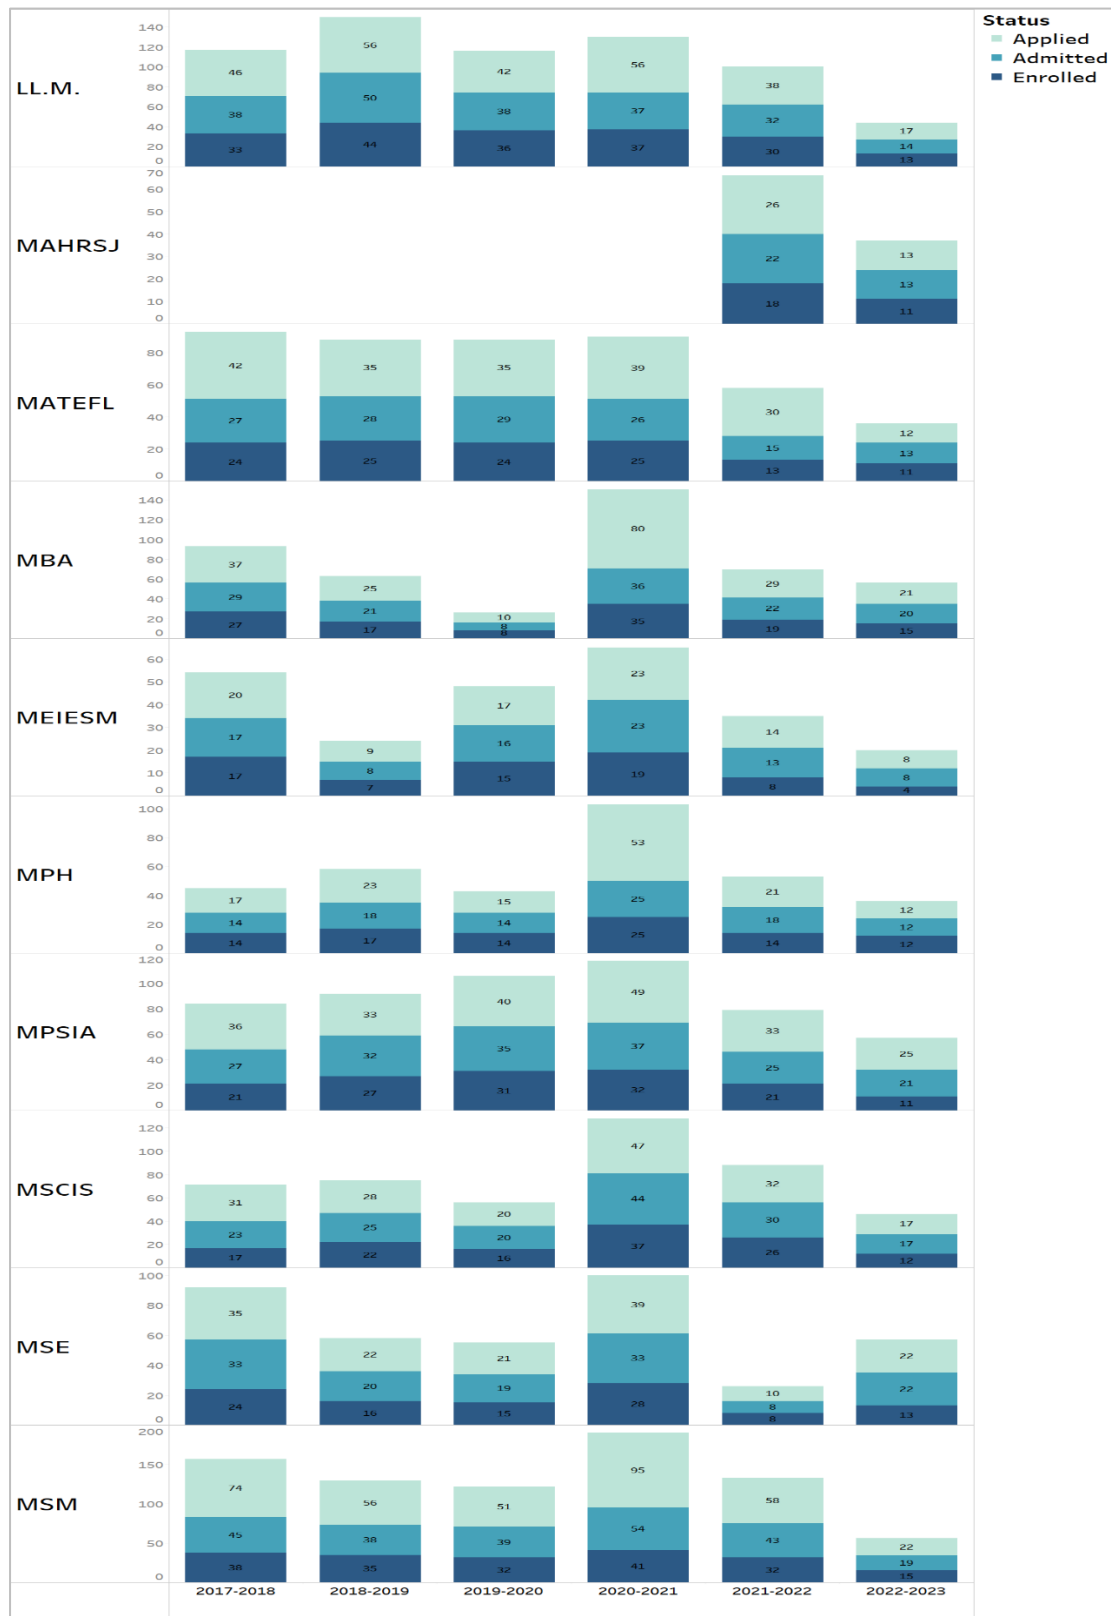

Figure 5. Graduate: Applicants, admits and enrollees by year and program¹

¹ Corrected compared to previous years Factbooks.

Figure 6. Undergraduate: Cohort size, retention and graduation rates

Figure 7. Graduate: Cohort size, retention and graduation rates

Retention rate can be lower than graduation rate because some students may drop out of college before graduating, leave for military, or are dismissed, meaning that fewer students are retained from one year to the next than are graduating. Additionally, a college's graduation rate could be higher due to transfer students, who are not included in the retention rate. For example, if a college has a high graduation rate due to many transfer students, but does not retain as many students from year to year, it could still have a lower retention rate.

¹ Revised from the 2021-2022 Factbook with corrected data

Description of Data

The data presented in this Factbook are for the *Fall* semester of the academic year, unless otherwise noted. Academic year data are compiled for the period from July 1 to June 30, and presented as of June 30, except as noted. The Fall data is based on the census date, which for Fall 2022 is September 15, 2022.

Applicants: individuals who fulfilled the requirements for consideration for admission and who were notified of a decision (admission, denial/automatic denial, conditional admissions). Applicants who apply to two programs (first and second choice of study) are counted in each program to which they are considered, but only counted once in the university-wide count. If an applicant is accepted to his/her first choice, s/he is not counted in the second choice.

Class (Undergraduate). For undergraduate students: freshman, sophomore, junior, and senior standing are determined by earned-semester credits:

Freshman: 0-29 semester credits

Sophomore: 30-59 semester credits

Junior: 60-89 semester credits

Senior: 90 or more semester credits

Cohort: Undergraduate.

A student is in a cohort when s/he is a first-time, full-time student. AUA tracks cohort from the beginning of their first term in the academic year. Further, a student in a cohort is:

- enrolled in an undergraduate degree program for the first time (including a student who enrolled in courses in the prior summer term and/or entered with advanced standing transfer credits earned in high school)
- full time as of the end of the add drop period in the first term enrolled
- has not previously been enrolled in an undergraduate degree program at AUA
- starts in the first term of the academic year with < 15 credits

The following are not included in a cohort:

- *A student who withdrew or was dismissed but then reenters the university is not included in the cohort year of reentry*
- *A student who is not enrolled in a degree program*
- *A student who has already earned an undergraduate degree at AUA*

An undergraduate student who changes his/her major is included in the university-wide cohort and his/her first major.

Cohort: Graduate -

A student is in a cohort when s/he is a first time, full-time student. AUA tracks cohort for the first term of the academic year. Further, a student in a cohort:

- is enrolled in a graduate degree program for the first time (including a student who enrolled in courses in the prior summer term)
- is full time as of the end of the add drop period in the first term enrolled
- has not previously been enrolled in another graduate (or graduate certificate) program at AUA (students holding an undergraduate degree from AUA or another institution are included in the graduate cohort)
- starts the program with less than 25% of the required credits needed for graduation

The following are not included in a cohort:

- *A student who withdrew or was dismissed but then reenters the university in the same or different program is not included in the cohort year of reentry*
- *A student who is not enrolled in a degree program*

- A student who has already earned a graduate degree at AUA

Continuing enrollment students are those students who have completed course work but are finishing their capstone and/or thesis research, writing or presentation.

Enrollee: student who is registered for class(es).

Faculty

Instructional Faculty:

Core faculty includes full-time faculty plus part-time faculty who are recurrent.

Recurrent Faculty includes faculty who have taught at least three semesters in the last three years.

Visiting faculty is defined in AUA's *Appointment, Retention, and Promotion and Faculty Titles* policy as temporary faculty whose appointment is for one or two semesters.

Non-instructional faculty:

Senior Academic Leadership includes President, Provost, Vice Presidents with Academic or Research Responsibilities, Deans, Associate/Assistant/Interim Deans and Program Chairs. A Senior Academic Leader who also teaches is listed as both Instructional and Non-instructional faculty.

Researcher includes those who conduct research. S/he is directly involved in planning, conducting experiments and/or data collection, or analyzing results. Classification as researcher is separate from the qualification of researcher obtained through a degree. An AUA researcher may work on employment or service contract or on a volunteer basis. A researcher on employment contract may hold the following titles: researcher, senior researcher, research specialist, senior research specialist, (co-) director of a research center (if a non-AUA faculty member), research assistant, research associate, research project manager, scientific director, and technical director.

First-time, first-year student: first-time, first-year student is a degree-seeking student who applied, was admitted, and enrolled (full- or part-time).

Full-time Equivalent

Students: starting from Fall 2019, student FTE calculation methodology was adjusted in compliance with new guidelines from the United States Department of Education.

Undergraduate Student: Student FTE=Number of full-time students + 0.392857* Number of part-time students. A single student is never counted as more than 1.0 FTE.

Graduate Student: Student FTE= Number of full-time students + 0.382059* Number of part-time students. A single student is never counted as more than 1.0 FTE.

Faculty: Faculty FTE = A+B, where A=# faculty teaching 18 TCPs or more for courses taught based on the university's Faculty Workload policy (<http://policies.aua.am/policy/13>) (TCPs for administrative responsibilities are added for academic program chairs and deans). B = total number of credits taught by those faculty members not included in A / 18. A single faculty member is never counted as more than 1.0 FTE.

Headcount includes degree and non-degree seeking students (full- and part-time), unless otherwise noted.

Student: Faculty ratio is calculated with instructional faculty only. See also Full-time Equivalent above.

The number of graduates is the total number of individuals who have received degrees and certificates including deceased alumni. This number is not reported elsewhere.

1-year retention: Degree seeking students from the cohort who are still enrolled as of the end of the add/drop period in same term of following year. This includes students who transferred from full-time to part-time enrollment status. (1-year retention rate is a percentage of the entering cohort.)

3-year graduation: Students from the cohort who graduate (complete degree requirements and are granted a) by the end of third academic year. 3-year graduation is reported for graduate students. (Graduation rate is a percentage of the entering cohort.)

6-year graduation: Students from the cohort who graduate (complete degree requirements and are granted a) by the end of sixth academic year. 6-year graduation is reported for undergraduate students. (Graduation rate is a percentage of the entering cohort.)

² Retention rate can be lower than graduation rate because some students may drop out of college before graduating, meaning that fewer students are retained from one year to the next than are graduating. Additionally, a college's graduation rate could be higher due to transfer students, who are not included in the retention rate. For example, if a college has a high graduation rate due to many transfer students, but does not retain as many students from year to year, it could still have a lower retention rate.

³ Cohort size revised from the 2021-2022 Factbook with corrected data

⁴ In Fall 2022 for PSIA cohort a course was cancelled, therefore all students ended up having 9 credits instead 12 credits but they still considered full time as a result of administrative action

¹ Cohort: Entering full-time degree-seeking students as of the end of the add/drop period. Students who enroll with the add/drop period are included. Reporting is for the first-term cohort of the noted academic year.

² 1-year retention: Degree seeking students from the cohort who are still enrolled as of the end of the add/drop period in same term of following year. This includes students who transferred from full-time to part-time enrollment status. (1-year retention rate is a percentage of the entering cohort.)

³ 3-year graduation: Students from the cohort who graduate (complete degree requirements and are granted a degree) by the end of third academic year. (Graduation rate is a percentage of the entering cohort.)

⁴ Students still enrolled at start of fourth academic year.
